

The Consumer Bankers Association has petitioned you to reverse or weaken Indiana's Telephone Privacy Law so they may intrude our homes again at their pleasure. I pay nearly \$120 a month for telephone service for my purposes and not solicitor's purposes. Businesses close their doors at 5:00 and put on the answering service. We cannot turn off our phones after 5:00 because that would eliminate calls from friends and relatives. Neither do I have the time to sort through phone messages to see which ones are personal calls needing responses. Please reject the CBA's petition.
